[United Press Service to the Telegraph]  
NATIONAL CALAMITIES.

Geneva, Dec. 1.

The Secretariat of the League of Nations has sent members a  
draft of the proposed Emergency Convention aiming to assess nations  
in order to provide a fund for relieving distress caused by calamities  
such as earthquakes, typhoons, famines, etc.

## THE MONROE DOCTRINE

Philadelphia, Dec. 1.

Mr. Hughes, speaking on the occasion of the centenary of the  
Monroe Doctrine, declared the present United States conception makes  
the Doctrine applicable to all non-American Powers whether in Europe  
or Asia and opposes the acquisition of territory by the transfer of  
dominion sovereignty or any means. He reiterated that America  
steadfastly adheres to the Open Door policy in China and respects  
China's integrity.

Philadelphia, Dec. 1.

State Secretary Hughes, in the course of an address on the  
Doctrine, outlined its history and explained how the policy harmonised  
with other policies of the nation, including the open door and integrity  
of China and the Far East. He declared the United States emerged  
from the War with the same aims as they went in. The United  
States, though victors, did not seek territory or general reparations,  
but desired to see France prosperous and secure, with wounds healed  
and just demands satisfied, and Germany united and prosperous  
making amends to the full extent of her power. They wished to see  
the fires of hatred quenched. The United States still opposed alliances  
and refused to commit themselves in advance in unknown con-  
tingencies. They reserved judgment to act as sense and duty per-  
mitted, and requested fair and equal opportunities in mandated ter-  
ritories, as the Allies acquired them through American aid. They  
desired to co-operate in peaceful settlement of questions which were  
justifiable. The United States would shortly seek to negotiate a  
series of most-favoured nation treaties with Latin American nations,  
not for preferential treatment but for equal opportunities with any  
other Power.—Reute.

(Reuter's Service.)

## THE SHIPPING BOARD.

Washington, Dec. 1.

The report of the Shipping Board, presented to Congress, ad-  
vocates State subsidies in order to ensure maintenance of an Ameri-  
can merchant marine. It points out the serious disadvantages of  
the system of Government operation compared with private opera-  
tion, from the standpoint of efficiency and economy. The Board is  
continuing its policy of retrenchment, and has reduced its payroll.  
The past year yielded \$330,000,000, including 145 steel vessels of  
578,000 tons, and 237 wooden ships of 855,000.

## AMERICAN MAIL STEAMERS.

Washington, Dec. 2.

The Postmaster General's annual report strongly appeals to  
American public opinion to sustain his department's policy of en-  
couraging the use of American ships by assigning to them, whenever  
practicable, American mails going abroad. He pointedly accuses the  
foreign postal administrations of withholding mails from American  
vessels in favour of their own ships and declares the American Post  
Office gives preference of twenty-four hours to American vessels  
and forty-eight hours to a postal organisation carried. He asserts  
American vessels obtain practically no western mails.

## ANOTHER GOVERNOR INDICTED.

Indianapolis, Dec. 1.

A grand jury has indicted Governor McCray, of Indiana, on  
charges of forgery and embezzlement.

Later.

The investigation into Governor McCray's financial transactions  
was begun by the Marion County Grand Jury last month, but the  
investigation was surrounded by secrecy from its inception. The list  
of witnesses included many bankers from Indianapolis and other  
cities in the State. Another phase of the Governor's financial  
trouble is involuntary bankruptcy proceeding against him by three  
Fort Wayne banks.

## AMERICAN PREPAREDNESS.

Washington, Dec. 1.

The annual report of the Secretary for War, urgently warns  
against the slightest cutting of the Army budget, and declares the  
Army is not only out below vital needs, but increased appropriations  
for national defence will soon be necessary, owing to the consumption  
of war stocks. The total numbers under military training or in mili-  
tary organisations have decreased since 1921 from 519,000 to 504,000.  
Again he recommends the earliest increase of the enlisted strength  
of the regular Army, from 125,000 to 150,000, and declares that with  
less isolation than ever before, the United States is in a state of un-  
preparedness comparable only with Germany among the great nations.  
The costs of the War and Navy departments are roughly 14 per cent.  
of the total Federal Budget of \$4,000,000,000, but only 6 per cent. goes  
toward purely military activities.

## BANQUE INDUSTRIELLE.

Paris, Dec. 1.

The Finance Commission of the Chamber heard a statement by  
M. Sarraut, Minister for the Colonies, on the Bill for renewal of the  
privileges of the Banque Industrielle de Chine. He dwelt upon the  
advantages which would accrue therefrom and indicated the modifica-  
tions made to the original convention as well as the bye-laws. The  
Commission will report on its conclusions.

#### REPARATIONS COMMISSION.

Paris, Dec. 1.

The newspapers are most pleased at the unanimous decision of the Reparations Commission and declare that the Entente has once more been cemented. L'Ouvrier says the conciliatory attitude of Sir John Bradbury was particularly valuable in view of the prospect of an agreement as regards Tangier and Morocco and the Italo-Spanish situation.

It is noteworthy that a semi-official statement says that the question of the payments from the Ruhr was not discussed because there was a tacit mutual agreement to avoid any discussion likely to cause conflict between the different schools of thought regarding methods.

One of the Committees appointed by the Reparations Commission is to investigate means of balancing the budget and stabilising currency, the other to investigate means of valuing or causing the return to Germany of her vanished capital. The significance of to-day's decision lies in the fact it is the first time since 11th January, when the decision was taken to occupy the Ruhr, that the Reparations Commission has taken a unanimous decision as regards Germany.

In connection with the Reparations Commission's decision, it is pointed out that the terms of reference to the proposed Committee do not contain the restrictions which M. Poincaré sought to place on the Committee of Experts suggested by Britain and which were unacceptable to the United States. Great importance is attached by the Commission to American participation without which it is believed, at least in British quarters, that the enquiry would be abortive. All the delegates were most impressed by the urgency of taking steps to check Germany's rush towards financial chaos.

A semi-official statement hopes that the unanimity of the Reparations Commission's decision will encourage the United States to send representatives to the Experts' Committee, the members of which are being appointed next week. The Commission will fix the next payments to be demanded from Germany when these committees have completed their labours.

#### THE GENERAL ELECTION.

London, Dec. 1.

The electoral contest, particularly in London and Scotland, is being marked by a campaign of rowdiness, of which the victims are mostly Liberals and Conservatives. They declare the campaign is organised by extreme Labourites or Communists.

Mr. Hogbin (Liberal) fighting Mr. Saklatvala (Labour) for North Battersea, has decided to cancel all his meetings and rely on personal canvassing, owing to the way he has been pursued and persistently interrupted. Mr. Asquith's brother-in-law, Mr. H. J. Tennant, Liberal candidate for Central Glasgow, is now constantly protected by the police owing to an incident when he was hustled and robbed of a gold watch and chain at the close of one of his meetings. Sir Robt. Horne's meeting at Glasgow last evening, after continuous interruptions, ended with the Labourites standing on chairs and incoherently yelling. Mr. Asquith suffered similarly at Paisley. A body of men carrying a banner with "Hall Bolshevik Russia!" finally took possession of one meeting, Mr. Asquith leaving the platform while "The Red Flag" was lustily sung.

Miss Violet Robertson, Unionist candidate for St. Rollox, Glasgow, was attacked by hoodlums while addressing a meeting in the school-room last evening, kicked on the leg and spat upon repeatedly. She is confined to bed today, suffering from bruises and shock.

Premier Massey, who, as a Dominion representative, has recently drawn Liberal criticism on his head owing to his publicly voicing Protectionist views in the course of the present electoral campaign, in a speech at Londonberry said Britain would have to tackle the problem of South American competition with British farmers. South America could at present beat them every time in the meat industry; when European peace was established, Britain would have to face greater German competition, and Britain's unemployment was due to free trade.

#### ITALY AND RUSSIA.

Rome, Dec. 1.

The Chamber has passed Decrees bringing into force the preliminary Italo-Russian and Italo-Ukrainian Agreements signed in 1921.

Premier Mussolini has announced in the Chamber that the Fascist Government is not opposed to recognition of the Soviet Government of Russia.

#### JAPANESE RECONSTRUCTION.

TOTAL VOTE OF ¥597,000,000.

Tokyo, Dec. 1.—The Restoration Board has published "final" figures, amounting to a total of Yen 597,000,000, including "business expenditure" Yen. 23,000,000.

For the restoration of Tokyo, Yen. 100,000,000 is provided, of which Yen. 322,000,000 will be spent upon streets.

The restoration of Yokohama calls for Yen. 46,000,000, of which Yen 30,000,000 will be spent upon streets.

Other of the larger items include advances of subsidies for local enterprises Yen. 75,000,000, interest, etc., Yen. 50,000,000.—Reuter.

## How Pretty Teeth

affect the smile—teeth freed from film

See what one week will do

The open smile comes naturally when there are pretty teeth to show. But dingy teeth are kept concealed.

The difference lies in film. That is what stains and discolours. That is what hides the tooth luster.

#### Why teeth are dim

Your teeth are coated with a viscous film. You can feel it now. It clings to teeth, gets between the teeth and stays.

No ordinary tooth paste can effectively combat it. The tooth brush, therefore, leaves much of it intact.

That film is what discolors, not the teeth. It often forms the basis of a dingy coat. Millions of teeth are clouded in that way.

#### The tooth attacks

Film also holds food substance which ferments and form acids. It holds the acids in contact with the teeth to cause decay.

Germs constantly breed in it. They, with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film, and very few people escape them.

#### Must be combated

Dental science has long been seeking a daily film combatant. In late years two effective methods have been found. Authorities have proved them by many careful tests. Now leading dentists nearly all the world over are urging their daily use.

A new-day tooth paste has been perfected, made to comply with modern requirements. The name is Pepsodent. These two great film combatants are embodied in it.

#### It goes further

Other effects are now considered essential. Pepsodent is made to bring them all.

It multiplies the salivary flow. It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth, so they will not remain and form acids.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for acids which cause decay.

Thus every application gives these tooth-protecting forces multiplied effect.

These things mean whiter, cleaner, safer teeth. They mean natural mouth conditions, better tooth protection.

The New-Day Dentifrice

A scientific film combatant, which whitens, cleans and protects the teeth without the use of harmful grit. Now advised by leading dentists the world over. For sale in two sizes by all druggists.

## TO-DAY'S MISCELLANY.

A resolution expressing the opinion that "no arsenic should be allowed in foodstuffs," was passed recently by Dover Health Committee. Arsenic was found by analysis in three samples of self-raising flour, and the committee's resolution was passed after hearing the reports of the analyst and the medical officer. The doctor described arsenic as an "acute accumulative poison," and spoke strongly of the danger of its use in foodstuffs.

The fifty-third annual Report of the Deputy Master and Comptroller of the Royal Mint (Mr. Robert A. Johnson) dealing with last year is interesting as showing what the authorities at the Mint are doing to revive the art of producing good medals, including portrait medals, in England, also the work that is being done in preparing the way for a really good series of new British coins when the time comes for these to be issued. Mr. Johnson, in his Report, after describing the reconstruction of the Medal Department, says: "The difficulty of maintaining a high artistic level with our medals, has also with our coins, has arisen from the gradual disappearance of the old art of engraving on the steel or matrix direct, and the lack of experience on the part of the sculptors and other plastic artists who, with the aid of the reducing machine, have so largely replaced the engravers. It is not sufficient to produce a large plaster model, the lines and planes of which are perfect in the size in which it is designed. It is necessary also to understand the technique of the small steel punch produced from this model by the reducing machine, from which the working dies are thereafter prepared. In other words, it is necessary not only to be a sculptor, but to be a medallist possessing at least something of the eye and skill of the old engravers. As a result of the lack of such knowledge of technique designs beautiful in themselves have not seldom been found to suffer materially in reproduction, and in some instances have also given rise to great difficulties from the mechanical point of view."

## OBITUARY.

**MR. WILLIAM STEWART.**

We regret to record the death of  
Mr. William Stewart, of the China  
Light and Power Co.'s staff, which  
took place at 7 a.m. on Sunday,  
at the French Hospital. Mr.  
Stewart took ill only a week ago  
and on Thursday last was removed  
to the French Hospital, where  
he passed away quietly, the cause  
of death being heart failure.

Very well-known in the Colony  
in which he had resided for twenty-  
nine years, Mr. Stewart was at  
one time a keen Volunteer and was  
one of our crack marksmen on the  
rifle range. At shooting he won  
many prizes and also represented  
the Colony in many of the Inter-  
port contests of his day. Among  
other activities he was a well-  
known free-mason and was active-  
ly connected with the Kowloon  
Cricket Club and the Kowloon  
Bowling Green Club. He was a past  
president of the former club. He  
came to Hongkong as saw-miller for  
the Hongkong and Whampoa Dock  
Company. He was regarded as a  
fine judge of timber and eventually  
after 16 years service at the Dock  
embarked upon business on his  
own account as a timber merchant  
and prospered as such until the  
war intervened. Recently he joined  
the service of the China Light  
and Power Company. Born in  
Scotland on the 9th May, 1867, he  
was 56 years of age at the time of  
his death. He is survived by Mrs.  
Stewart, who for many years has  
resided in Gourrock, Scotland, by a  
son who is with the Dock Com-  
pany, a daughter, wife of Mr. R.  
Lapsley, also of the Dock Com-  
pany, and by other children who  
are at home.

The funeral, which was largely  
attended, took place yesterday  
afternoon at the Protestant  
Cemetery, Happy Valley. The  
chief mourners were Mr. Charles  
Stewart (son) and Mr. R. Lapsley  
(son-in-law) and among those pre-  
sent were: Mr. and Mrs. Bolton,  
Mr. and Mrs. G. Duncan, Mr. and

HONGKONG, 3rd Dec., 1923.

### THE FUTURE.

A time is coming when Hongkong will have so many further amenities that it will be almost a new place. Most of the present tumbledown buildings will have made way for new structures, designed on modern lines of comfort and sanitation. An up-to-date sewage system will be operating nearly everywhere in the Colony, and many of the offensive practices of the present day will be done away with. There will be a new cable tramway running through the Murray Barracks site and on to Magazine Gap, with resultant expansion of the Peak residential district towards the eastern hills. The Mount Cameron area will by then be claiming the attention of builders; and further motoring facilities will make several fine locations on the south of the island available for the residences of the more wealthy of our citizens. The business quarter of the city of Victoria will gradually absorb more of its present suburbs, east and west, and, given possible tranquillity in South China, the commerce of the port will perhaps be nearly doubled, with ample wharf and godown and berthing facilities available at the new reclamations on Praya East and North Point and with the big harbour improvement scheme on the Kowloon side an accomplished fact.

Huge, fast ferries will maintain services across the harbour, enabling workers to reside on the peninsula without fear of being late for office or held up by bad weather. In the harbour there will be powerful life-saving vessels for use in the typhoon season. Kowloon itself will be an adjunct to the commercial area of Hongkong, and the "way back" portions of the New Territories will be the sites of garden cities where the classes of moderate means will find dwell-

ing accommodation. Efficient transport will connect these residential suburbs with the business quarters. Adequate reservoir systems will by then ensure an ample water supply even in times of drought; and in addition extension of medical and sanitary science in the Colony will eliminate several diseases, or at any rate decrease their incidence. With peace and, presumably, prosperity on the mainland, there will be far fewer cases of armed robberies; and the institution of proper patrols, the extended use of wireless, and other measures, will put an end to piracy. Probably, with a Government as efficient as its predecessors, and with all these conveniences, the populace will be a far more contented one than it is at present. It is truly a vision splendid.

But what comfort is the contemplation of such things to the citizen of to-day? It can only enhance the contrast between the present and the future. It proves that the pioneering days of the Colony are not yet over, and we are planning what our successors will enjoy. In that coming time of good things, the cost of living, and standard of rents, might be considerably higher than at present, but no doubt the level of wages will have correspondingly increased, and the great achievement will probably be stability—a definite price for everything, and no worries about the future. Yet it all seems a dream too good to come true in its entirety. Pessimists will visualise the bad effects of making this Colony too attractive. It will mean a vastly increased, and possibly rapidly expanding, population, which will exert such pressure as to bring about the same evil conditions that we bewail to-day. We have heard it said that the improvements in contemplation will perforce be brought about too gradually to keep pace with requirements, so that the crumbles of twenty years hence will be the same as now. Well, we most probably shall not be here to judge of the truth of this prediction, but it is an argument of sufficient force to make us doubt whether our prior vision, based on the promises of the present, will be attained in full. Human nature being what it is, we quite expect that the residents of 1944 will be grumbling as heartily as ever; and if they have to put up with even half the drawbacks of the present period they will be fully justified.

### Local Education.

The instance we reported the other day of a young man going to Oxford University and the Inns of Court from Hongkong, and having his local Intermediate Arts pass accepted, so that he carries on at Oxford just as if he had spent his first two years of university life at that ancient seat of learning, helps to focus attention on the fact that this Colony is able to give an education equal to that of any part of the Empire. For those who would have their children with them as long as possible, the prospect is now opened of sending a promising youth to complete his education in Britain, for a period not long enough to be a great strain on patience or purse yet sufficient to enable the acquirement of the final polish of the West (if such be desired). Very interesting speculations arise, such as the possibility of a British student of China and the Chinese leaving a Home University for a spell in the Hongkong institution, with all the advantages that environment and local contact could provide. There was, not long ago, much discussion of utilising a portion of the remitted Boxer indemnity for the purpose of sending Chinese students to "finish up" in Britain, and now that our premier Vansittart has recognised Hongkong's tuition as equal to its own—at least, so far as mere knowledge is concerned—the

The defendant stated he was a water tender on board the President Taft, and in order to enable him to secure his witnesses, who were all employed on the boat, a remand was granted by his Worship.

aforsaid suggestion becomes all the more feasible.

### The Russian Church.

It is difficult for one outside the country to assess the exact values of religion and anti-religion in Soviet Russia, but from the events which we learn of in connection with the Church in that unhappy land it would seem that one of the strongest links in the maintenance of order in the country has been snapped. Thus we learn without further surprise of continued persecution against the unfortunate priests of the Russian Orthodox Church. This but follows the sequence of events in the Soviet anti-religious campaign, beginning with the trial and sentencing of the Patriarch Tikhon and others, and leading to the recent confiscation of Church properties, the effort being extended even to the United States of America. Yet, the traditional idea of old Russia, with its religious fervour, still exists; and one cannot think, somehow, of all those millions of peasants allowing their creed to fall into desuetude. We still conjure up visions of the days when every dwelling had its revered ikon.

Thus does arise the idea of a small band of anti-Church terrorists holding sway over a vast population of resentful beings, still faithful to the religious traditions of their forefathers; for to accept the theory that the bulk of Russians are now unbelievers is to take it for granted that the Bolshevik upheaval has wrecked every branch of the general social fabric, and that is impossible.

### CHADWICK RETAINS TITLE.

FLYNN TAKES CROWN IN SECOND ROUND.

BOXING ASSOCIATION'S EIGHTEENTH TOURNAMENT.

A. R. Chadwick, of H. M. S. Marazion, lightweight champion of the Colony, did not take long to dispose of Pte. Flynn, of the King's Regt., at the Theatre Royal on Saturday night, sending him to the boards for the count in the second round.

This contest, for the lightweight championship and the Gedge Belt, which was scheduled to go fifteen rounds, was the principal event at the Boxing Association's eighteenth tournament. The building, as usual, was packed, H. E. the Governor, H. E. the General Officer Commanding, Commodore Grace and Sir Wm. Rees-Davies being amongst those present in the ringside seats.

Chadwick entered the ring at 127 pounds, while Flynn scaled seven pounds heavier. Those who have followed the careers of the two men inside the ropes during the time they have been in the Colony, however, had little doubt right from the start which way the fight would end. Flynn is a good scrapper, as hard as nails, with plenty of grit and the ability to take more punishment than the average man, but in science and ring-craft he is not in Chadwick's class.

Flynn was the aggressor in the first round. Chadwick, more cautious, was content to take up the defensive until he had got his opponent's measure. Neither scored to any great extent and the round was on the same side. In the second, Chadwick saw his opportunity. Stepping in, he got through Flynn's guard, and with a left and right to the jaw in quick succession, sent the soldier to the boards. Flynn remained down for nine. He came on again, but a well-timed right to the jaw, a few seconds later, sent him down again. Flynn was not knocked out, but he stayed down for ten, regaining his feet, giving his opponent the decision.

### EARDLEY WINS LIGHTWEIGHT.

The other big fight of the evening also was of short duration. A. B. Eardley (139 lbs.), H.M.S. Ambrose, faced Pte. Scott (131 lbs.), King's Regt., in a ten-round lightweight contest. The first round saw some good exchanges. In the second, Scott sent Eardley to the boards, with a terrific right swing, the sailor taking a count of seven before rising. Eardley was also badly marked above the left eye in this round. Eardley rattled his man towards the end of the third. In the fourth, the sailor sent in several effective wallops. A right to the ribs made Scott stagger and shortly afterwards the sailor drew blood from his opponent's left eye. At the conclusion of the fourth round, it was considered that it would be dangerous if Scott continued to fight, owing to his damaged optic, and Eardley was awarded the decision.

### A WELL-MATCHED PAIR.

Stoker P. O. Young (152 lbs.), H.M.S. Diomedes, and L/cpl. Drennan (160 lbs.), King's Regt., who met in a six-round middleweight contest, were a well-matched pair, the fight going the full distance. The contest saw some good, hard, clean slogging. All six rounds were very even, but Drennan appeared to have a slight advantage in the second and also towards the end. Young was given the decision on points, but the margin must have been a narrow one, and the way in which the verdict was received in some parts of the house indicated that there some who considered that it should have gone the other way.

### THE FEATHERWEIGHTS.

At the end of six rounds, Pte. Beal (123 lbs.) was given the decision on points over Pte. Kinsella (126 lbs.), both of the King's Regt., in a featherweight contest. The opening rounds were rather tame. The fight became more interesting as it progressed, but there were never any very exciting moments. For the most part Beal was the aggressor and he did practically all the leading in the concluding rounds.

### A GAME LOSER.

There was some hard hitting in the heavyweight contest between Stoker Brown (164 lbs.), H.M.S. Carlisle, and Bombardier Barton (161 lbs.), of the R.G.A. From the very start it was evident that no man could stand up for very long against the terrific punishment which both these men took and gave so freely. Brown went to the boards

once in the first. The second was easily Barton's round. The sailor went right down twice and a third time to his knees. With a right to the jaw, in the third the soldier sent his man down for five. Brown regained his feet and pluckily attempted to continue, but a left sent him down again, this time for the full count knocked out. The loser received as enthusiastic an ovation as the winner from the sporting crowd who appreciated his gameness.

### SHORT AND SWEET.

The welterweight contest between A.B. Edwards (149 lbs.), H.M.S. Despatch, and Stoker Perkes (144 lbs.), H.M. Submarines, was very soon over. After a brief exchange, Edwards gave his man the knock out in the first few seconds of the first round.

### A SPORTY SIX ROUNDS.

Pte. Smith (115 lbs.) and Cpl. Cpl. Thomstone (114 lbs.), both of the King's Regt., put up an interesting six rounds in the bantamweight class. Smith scored freely all along, but Thomstone never seemed worried. He took all Smith had to give him and came on again, apparently as fresh as ever. Smith was awarded the decision on points.

### PRESENTATION.

During the evening, on behalf of the Boxing Association, His Excellency the Governor (Sir Edward Stubbs, K. C. M. G.) presented a silver cup to the King's Regiment as a mark of appreciation of their fine sporting qualities. The ceremony was performed shortly before the interval.

Addressing Colonel Blake, the Commanding Officer of the Regiment, His Excellency said he had been asked by the Boxing Association to present the cup to the Regiment as a mark of appreciation for the thorough sporting spirit the Regiment had shown in every way since it had been in the Colony. The success of the boxing competitions of the Association had depended very largely on the King's Regiment during the time they had been there. It had been a source of great pleasure to him to attend the Regimental tournament with the certainty of seeing good, fine, brisk and sporting boxing. (Applause). They were all extremely sorry to part with the King's Regiment and wished them the best of luck in India. They could only hope that the new Regiment which had just arrived would follow in their footsteps and be as good sportsmen (Applause).

Colonel Blake, having accepted the cup from His Excellency's hands, returned thanks. He said that during the two years the Regiment had been in the Colony they had taken part in various sports and had been helped very largely by the fine sporting spirit shown by the sister Service and the civilians of the Colony. The Regiment had, he hoped, provided a little interest in football. He noticed that their fellow Chinese citizens took a great interest in the matches that were played on Murray parade ground and many civilians returning from their offices had frequently halted for ten minutes or a quarter of an hour and watched the game being played. In boxing, they were still learners and had much to discover in the art, but he had no doubt that when they got to India they would learn how to use the straight left. (Laughter and applause). If any Hongkong people happened to visit the Regiment at their station at Karachi they would always extend the right hand of friendship. They would always be pleased to see them at their station seven thousand feet up in the Himalayas (Applause).

### THE OFFICIALS.

The officials were as under:

### SMUGGLING WHEEZE.

Three servants of Mr. H. Fitzmaurice, the British Vice-Consul, Siam, were charged on November 14th, with attempting to smuggle opium into Bangkok from the North. When a search was made on a train in which the Vice-Consul was travelling, a quantity of opium was found hidden beneath clothes in Mr. Fitzmaurice's trunks.

## SATURDAY'S GYMKHANA.

## FERN LEAF WINS CHAMPIONS.

The extra Gymkhana meeting held on Saturday was productive of some good racing, although in two of the events only two ponies faced the starter. The big race of the day, the Gymkhana Champions, was won by Mr. Carroll's Fern Leaf after an exciting tussle with Ramsbury. The first race of the afternoon provided a surprise win, those few who had backed Skylight each getting \$158.20 back for their investment.

Among those attending was H.E. the Governor and a party from Government House, whilst the general attendance was unusually large. The band of the King's Regiment provided a very enjoyable programme of music.

The following were the results:

## Sunday's Race.

The good races on Saturday were followed on Sunday by a race for the Gael boats. This was the sailing of a race which some time ago was unfinished owing to the boats being still out after the time limit was passed.

The course was to Lynton Beacon to East Rock thence to Quarry Bay and Channel Rocks, a distance of about 9 miles. Most boats started with one reef down but this was shaken out before Lynton was made. The Joan was well away at the start and got a lead which she kept the whole way round. At Lynton it was evident Joan would take some beating and she eventually took the gun well ahead of the Pierette.

The course was very interesting one with the wind at about E.N.E. and provided a very good race.

Joan's win put her in a comparatively safe position as regards points for she now has 15 and is 5 ahead of Pierette.

When the Italians evacuated the Isle of Corfu, a hastily made Greek flag was hoisted. Some one noticed that the flag contained 11 stripes, as shown in the drawing. The regulation flag should have only nine stripes; five the in upper part, and four in the lower. The flag was taken down, and cut into two pieces, which were sewn together so that they formed the nine-striped flag. Can you show how the flag was divided?

Saturday's answer:  
The name ANNA may be read backward as well as forward. Place "H" before and after, making "HANNAH," which is also a name that can be read either way. Ada and Eve can be read either way, but will not fill the requirement of the additional letter.

## The Food of Kings for your Baby

Kings command the best the world can give, and the Royal Infant has the best medical advice, the best nurses, the best food obtainable.

Glaxo is privileged to display the Royal Arms of Italy and Spain because the infant sons of the Kings of Italy and Spain were brought up on Glaxo.

Your Baby is a King, and demands as his Royal right the best that you can give him. Glaxo—the food of Kings—is, therefore, the food King Baby must have.

**WAS RUN-DOWN, WEAK AND NERVOUS.**

If You Are the Same Mrs. Crane's Case Will Interest You.

In America Mr. Williams' Pink Pills for Pale People are just as well-known and popular as they are in this country. In fact you could hardly find a civilized country in the world where they are not known and praised.

Mrs. Elizabeth Crane lives at No. 230 East Main Street, Rochester, U.S.A. "I was all run down, weak and nervous," said she recently, "I suffered from sour stomach and could not eat anything but broth. I suffered frequently from sick headaches and often awoke at night with stomach distress. There were severe pains in my limbs and I had a backache."

"I saw Dr. Williams' Pink Pills advertised and secured a box. It was a fortunate day for me for I began to improve in a short time. I feel like a different woman now. I sleep and eat well and never have any stomach trouble. I have gained strength and my nerves are much better. I cannot say enough for Dr. Williams' Pink Pills for they are the only medicine that ever helped me."

For climatic reasons Dr. Williams' Pink Pills are sold in glass wax sealed bottles, instead of boxes, throughout the Far East. This helps preserve the unique blood and nerve tonic properties which have made them world-famous as a remedy for stomach troubles, anemia, nervous debility, rheumatism, the after effects of fever, and other diseases, also for the special ailments of women. Dealers everywhere sell Dr. Williams' Pink Pills for Pale People, or post free at \$1.50 per bottle, \$5.00 for 6 bottles, from the Dr. Williams' Medicine Co., 60 Kiangse Road, Shanghai.

## BREEDING "WILD" CATTLE.

British Columbia is soon to have its own herd of wild buffalo, according to present plans of the Game Conservation Board. The Dominion Government is willing to send three or four hundred buffalo to British Columbia province from the famous park at Wainwright, Alta., where the herd has increased so rapidly that scores of the animals have had to be slaughtered annually.
